

Tree Cap Removal System

Wellvene's Tree Cap Removal System provides a safe back-off system for tight or seized tree caps.

DESCRIPTION

Customisable to your requirements, the system can include an extraction tool only to overcome the o-ring and lift the inner sub. It can also include a clamp, slide hammer, and hydraulic system for more challenging removals.

- Adjustable to suit any size and type of tree cap
- Land off plates eliminate manual handling of chain type tools
- Anti-slip system ensures safety of personnel

OPTIONS AVAILABLE

- Extraction Tool only
- Extraction Tool, Clamp and Slide Hammer
- Extraction Tool, Clamp, Side Hammer and Hydraulic System
